I (we) have read and understand this Addendum and agree it is a part of my (our) bid on the above proposal.

NAME OF COMPANY OR FIRM: _____________________________________________

SIGNED BY: _____________________________________________________________

TITLE: ____________________________________ DATE: _____________
40690 Tractor Lease
Response to Vendor Questions

1. What will be the approximate level of hours per year on each tractor?
Answer: Five (5) tractors approximately 300 – 350 hours. One (1) tractor of Group II for Stocker Feed, approximately 800 hours. Hours are based off of current usage and are only an estimate of what is to be expected.

2. The maximum height is listed at 114” for all horsepower levels or groups. This may require special tire sizes to maintain this height. Is this height requirement one that needs to be strictly followed? If not, could more guidance be provided?
Answer: No, this requirement does not need to be strictly followed. Size all tires appropriate to tractor size.

3. What is the required GPS accuracy for the Group III tractor for the Farm Shop?
Answer: Pass to Pass accuracy for tillage with a 9 inch to 13-inch drift over 15 minutes. John Deere example (SF1).

4. What are the estimated hours of use for each of the 6 tractors being requested for lease?
Answer: See answer to #1 question.

5. Last year there were 7 tractors. Which one isn’t going to be replaced this year?
These were the hours requested for the tractors last year.
   - CAT I:
     - one tractor 400hrs
   - CAT II:
     - one tractor w/loader for 400hrs
     - one tractor w/loader for 350hrs
     - one tractor 750hrs
   - CAT III:
     - 3 tractors w/loaders for 350hrs
Answer: CAT II. One tractor w/loader for 350 hours which was listed for Cow Calf Unit.

6. Knowing about how many hours are going to be put on the tractors helps me arrive at an hourly rate.
Answer: See answer to #1 question. 5 of the current tractors to be replaced will have approximately 350 hours and 1 for the Stocker unit will have additional hours as noted in answer to question #1.

7. Confused by the spreadsheet that we are going to respond with our pricing. What are you looking for in the boxes circled below?
Answer:
For Term of Lease Contract. (Option A.) Disregard the first column within the circle of (1 Year cost per hour). For Years 2 thru 5, with continuance of lease agreement, please provide the cost per hour rate.

For Cost to Purchase Tractor at End of Lease with payments going towards purchase. (Option B.) Please provide the cost per hour rate if an agreement to purchase a tractor is made for each of 1 year thru 5 years.
